

City of Red Bud Notification System

The Mayor and the city aldermen have approved a voice notification system to be implemented for the city residents. The system will be used to inform residents of inclement or severe weather. The system will also be utilized to notify the people of Red Bud of important messages pertaining to the city and its residents. The system allows a voice notification to be sent via phone message to your choice of one (1) cell phone or one (1) landline.

If you are interested in signing up for this service, please list the one (1) phone number you would like the notification to be sent. It will be the responsibility of each resident to notify city hall of any information changes, such as address or phone number.

Date: _____

Resident's Name: _____

Home Address: _____

Please indicate which number you would like to use for the service:

[] Home Phone (landline) or [] Cell Phone

Home Phone Number: _____

Cell Phone Number: _____
