**B. Structure and Functionality**

**1. Repairs & Maintenance: Pool Action Items**

Discussion was held on what is needed to make the pool usable in the future. Included in the packet was a list of needed repairs. Sand getting

into the filtration/pump system is the major issue. Where the sand is coming from, below the pool deck or pool is unknown. Nevois asked about pipe lining. Eckart does not recommend coring the pool. Schwarzkopf suggested getting hard numbers on the cost to replace the incoming and outgoing piping, filtration system. Eckart will get more information on using a camera to check the pipes. Eckart has a quote from Germann Brick to do the patch work on the partition walls for \$3,100. The roof bid is \$25,000. Further discussion will be held at the December council meeting.
